

InternetData

Protection, Inc.

Reliable Online Backup Made Easy.

Protect your data.
Protect your business.

Never be left without a backup again.

What if all of your documents and e-mail were suddenly gone? More than half the businesses that lose data in a disaster are **out of business within two years!**

Our easy to use software will be installed and configured with backups scheduled to run in just a few minutes. And only Internet Data Protection can **bring your data to you**, restore your data and get you **back to running your business.**

Reliable, High-Speed Data Protection. Internet Data Protection software reduces the size of data backups to deliver the **fastest backup times possible** using low bandwidth. With FastBIT technology, we implement the sectors most efficient backup software. FastBIT **reduces the size of backups by up to 99%.**

Secure Data Archiving. When you choose our Data Archiving service, your data is encrypted at the time of backup and remains securely encrypted while on our servers. **Only you have the ability to see your data!** Your critical data will then be **stored at multiple physical locations** for the utmost data security. Archiving your data with Internet Data Protection can **save you substantially** over traditional archiving methods.
