

InternetData

Protection, Inc.

Protect your **data**.
Protect your **business**.

Never be left without a backup again.

What if all of your documents and e-mail were suddenly gone?

More than half the businesses that lose data in a disaster are **out of business within two years!**

Our easy to use software will be installed and configured with backups scheduled to run in under 10 minutes. And only Internet Data Protection can **bring your data to you**, restore your data and **get you back to work!**

Secure Data Archiving.

When you choose our Data Archiving service your data is encrypted with the highest available encryption at the time of backup and remains securely encrypted while on our servers. **Only you have the ability to see your data!**

Your critical data will then be **stored at multiple physical locations** for the upmost data security. Archiving your data with Internet Data Protection can **save you thousands** over traditional archiving methods.

Features and Benefits

Fully automated backup process

Data is protected with the strongest level of encryption available today.

No tapes or media required, restore your files from anywhere 24x7.

We can bring your data to you and restore your data anywhere in Chicagoland!

No expensive hardware to buy or maintain.
